

M.L. RYDER - LIST OF PUBLICATIONS

NUTRITIONAL AND HISTOCHEMICAL.

1. RYDER, M.L. (1953). Use of Cyanol in the study of blood vessels in sheep skin. *Nature* 172, 125.
2. RYDER, M.L. (1953). An adjustable cutting stage for a freezing microtome. *The Microscope*, 9. 273-271-
3. RYDER, M.L. (1955). The effect of nutritional plane on wool follicle development in Cheviot lambs. *J. Text. Inst.* 46 T565-575.
4. RYDER, M.L. (1955). Studies on the nutrition of wool follicles in sheep. The anatomy of the general blood supply to the skin. *J. Agric. Sci.* 45, 311-326.
5. RYDER, M.L. (1955). The blood supply to the wool follicle. *Proc. Int. Wool Res. Conf, Australia.* 1955, Vol. F. 63-91.
6. RYDER, M.L. (1956). Observations of nutritional and seasonal changes in the fleeces of some Masham sheep. *J. Agric. Sci.* 47. 129-144.
7. RYDER, M.L. (1956). Use of radioisotopes in the study of wool growth and fibre composition. *Nature*, 178, 1409-1410.
8. RYDER, M.L. (1957). Nutritional factors influencing hair and wool growth. *Brit. Soc. Res. on Ageing-Symp. on Biology of Hairy Growth.* Published as chapt. in *The Biology of Hairy Growth*, pp.305-334. Eds. Montagna, W. and Ellis, R.A., Academic Press (1958).
9. RYDER, M.L. (1958). Investigations into the distribution of thiol groups in the skin follicles of mice and sheep and the entry of labelled sulphur compounds. *Proc. Roy. Soc., Edin*, 67, 65-82.
10. RYDER, M.L. (1958). Some observations on the Glycogen of the wool follicle. *Quart. J. Micr. Sci.* 99, 221-228.
11. RYDER, M.L. (1959). Studies of sulphur, phosphorus and some metals in skin follicles. *J. Histochem. Cytochem*, 2, 133-138.

12. RYDER, M.L. (1959). Some histochemical observations of amino-acids and nucleic acids in the wool follicle . *Quart. J. Micr. Sci* , 100, 1-11.

SEASONAL CHANGE

13. RYDER, M.L. (1960). A study of the coat of the Mouflon *Ovis musimon* with special reference to seasonal change. *Proc. Zool. Soc., London*. 135, 387-408.

14. RYDER, M.L. (1962). Preliminary observations on seasonal changes in the fleece of unshorn Merino sheep. *Aust. Soc. Anim . Prod*, 4, 461-468.

15. RYDER, M.L. (1961). Moulting and hair replacement. *Symp. on Progress in Biological Sciences in Relation to Dermatology*. Cambridge, 1963. In *Progress in Biol. Sci. in Relation to Dermatol*, 2, pp. 325-335. Eds. Rook. A. and Champion, R.U., C.U.P.

16. RYDER, M.L. (1966). Coat structure and seasonal shedding in goats. *Anim . Prod.*, 8. 289-302.

17. RYDER, M.L. (1967). Wool fibre shedding in some Merino sheep. *Aust. J. Agric. Res.*, 18, 683-688.

18. RYDER, M.L. (1969). Development, structure and seasonal change in the coat of Wiltshire sheep. *Anim. Prod.*, 11. 467-477.

19. RYDER, M.L. (1970). Structure and seasonal change of the coat in Scottish wild goats. *J. Zool*. 161, 355-362.

20. RYDER, M.L. (1971). Cycles of wool follicle activity in some Shetland sheep. *Anim. Prod.*, 13, 511-520.

21. RYDER, M.L. (1971). Wool growth cycles in Soay sheep. *J. Agric. Sci., Camb.*, 76, 103-197.

22. RYDER, M.L. and KAY, R.N.B. (1973). Structure of, and seasonal change in, the coat of Red deer (*Cervus elaphus*). *J. Zool. Lond.*, 170. 69-77.

23. RYDER, M.L. (1973). Growth cycles in the coat of wild Mouflon sheep and their crossbreds. *Res. Vet. Sci.*, 15, 186-196.

24. RYDER, M.L (1973). The failure of thyroxine to restore wool growth to inactive follicles . *Anim. Prod.*, 16, 319-321.
25. RYDER, M.L. (1974). Seasonal fleece changes in some cheviot sheep. *J. Agric. Sci., Camb.*, 83, 93-99.
26. RYDER, M.L. (1975). Development, structure and seasonal change in the fleeces of unimproved Scottish Blackface sheep from the Hebrides. *J. Agric. Sci., Camb.*, 85, 85-92.
27. RYDER. M.L. (1976). Seasonal changes in the coat of the cat. *Research in Vet. Science*, 21, 280-283.
28. RYDER, M.L. and LINCOLN, G.A. (1976). A note on the effect of changes in daylength on the seasonal wool growth cycle in Soay sheep. *Anim. Prod.*, 23, 257-260.
29. RYDER, M.L. (1977). Seasonal coat changes in grazing Red deer (*Cervus elaphus*). *J. Zool. Lond.* 181, 137-143.
30. PRIESTLEY. G.C, RYDER, M.I. and HEAD, K.W. (1977). Regeneration of wool follicles in autografts of sheep skin. *Res. in Vet. Sci.* . 23, 303-309.
31. RYDER, M.L. and PRIESTLEY, G.C. (1977). Use of skin autografts to study the control of the wool growth cycle in sheep. *Res. in Vet. Sci.* 23, 310-318.
32. KRY, R.N.B. and RYDER, M.L. (1978). Coat growth in Red deer (*Cervus elephus*) exposed to a day-length cycle of six months duration. *J. Zool Lond.*, 185, 505-510.
33. RYDER, M.L. (1979). Thyroxine and wool follicle activity. *Anim. Prod.* 26, 109-114.
34. Ryder, M. L (1982). Seasonal change in two selection lines of Scottish Blackface sheep during their lifetime on the hill

35. PRIESTLEY, G.C. and RYDER, M.L. (1981). Autoradiographic studies of wool growth rate in Wensleydale crossbred lambs: absence of a marked circadian rhythm. *Anim, Prod.* 33, 259-263.

36. RYDER, M.L. (1982). Seasonal fleece changes in two selection lines of Scottish Blackface sheep during their lifetime on the hill. *J. Agric. Sci. Camb.* 98, 553-562.

MISCELLANEOUS.

37. RYDER, M.L. and AUBER, L. (1954). Abnormal growths associated with wool follicles in sheep. *Nature*, 174, 743-744.

38. AUBER, L. and RYDER, M.L. (1955). Abnormalities in the structure and development of wool fibres. *Proc. Int. Wool Res. Conf., Australia*, Vol. F, 36-62.

39. RYDER, M.L. (1956). Observations on the fleeces of experimental sheep receiving daily doses of sodium flouride. *J Agric. Sci.*, 41, 187- 190.

40. RYDER, M.L. (1959). Some unusual outgrowths from secondary follicles in Soay sheep. *Nature*, 183, 1831-1832,

41. RYDER, M.L. and ATKEN, J.D. (1962). A possible method for assessing the degree of "dogginess" in Merino wool from the proportion of individual fibres affected. *Aust. J. Sci.*, 24, 484-485.

42. RYDER, M.L. (1962). The structure of Rhinoceros horn. *Nature*, 193, 1199-1201.

43. SLEE, J. and RYDER, M.L. (1967). The effect of acute cold exposure on wool growth in sheep. *J. Agric. Sci., Camb.*, 69, 449-453.

44. RYDER, M.L., LAND. R.B. and ORSKOV, E.R. (1970). A ram with posterior duplication. *Vet. Rec.*, 86, 769-771.

45. RYDER, M.L. (1976). Why should rare breeds of livestock be saved? pp. 244-249. in Olney, P.J.S. (Ed.). *International Zoo Yearbook 16*.

46. BROOKE, C.R. and RYDER. M.L. (1977). Characteristics of some less-common breeds of sheep in southern Europe: a preliminary survey. *Ann. Genet Sel. Anim.* 9, 17-34.

47. A full report of this survey was published by the F.40 as Animal Prod. and Health Paper 8 pp 62 (1979).

48. INCE, J. and RYDER, M. L. (1984). Evaluation of carpets made from experimental wools. *J. Textile Inst.* 75, 47-59.

48(a) Thea GABRA-SAUNDERS, RYDER. M. L. and WILLIAMS, A.E. International medulla of hair revealed by scanning electron microscopy. *J. Microscopy* 154, 189-132.

48(b) RYDER, M.L. and GABRA-SAUNDERS, Thea. (1964) A note on fleece coting (felting) in sheep. *J. Agric. Sci Camb.* 103, 369-371.

STRUCTURE AND EVOLUTION OF THE FLEECE

49. PEART. J.N. and RYDER, M.L. (1954). Some observations of different fleece types in Scottish Blackface sheep. *J. Text. Inst.* 45. T821-872.

50. RYDER, M.L. (1956). The pre-natal development of follicle population in the Romney lamb. *J. Agric. Sci.* 47, 6-11.

51. RYDER, M.L. (1957). A survey of the follicle populations in a range of British breeds of sheep. *J. Agric. Sci.*, 49. 275-282.

52. RYDER. M.L. (1958). Follicle arrangement in skin from wild sheep, primitive domestic sheep and in parchment. *Nature*, 182, 781-783.

53. RYDER, M.L. (1960). Follicle remains in some British parchments. *Nature*, 187, 130-132.

54. RYDER, M.L. (1961). A specimen of Asiatic sheepskin from the 4th or 5th Century B.C. *Aust. J. Sci.* 24, 246-248.

- 55- RYDER, M.L. (1962). The histological examination of skin in the study of the domestication of sheep. *Int. Symp. uber Probleme der Domesirkation und Fruhgeschichte de Haustiers*, Kiel, Germany, 1961. *Z. Tierzucht. ZuchtsBio1.* 2, 168-171.
- 56- RYDER, M.L. (1963). Some measurements of old Merino wool. *Aust. J. Sc.* 25, 499-502.
57. RYDER, M.L. (1964). Fleece evolution in domestic sheep. *Nature*, 204, 555-559.
58. RYDER, M.L. (1966). Wool from Samual Marsden's sheep and other contemporary Merinos. *J. Text. Inst.*, 53, T377-3832.
59. RYDER, M.L. (1966). Coat structure in Soay sheep. *Nature*, 211, 1092-1093
60. RYDER , M.L. (1968) . Fleece structure in some native and unimproved breeds of sheep. *Z. Tierzucht. ZuchtsBiol.*, 85, 143-170.
61. RYDER, M.L. (1969). Changes in the fleece of sheep following domestication (with a note on the coat of cattle). In *The Domestication and Exploitation of Plants and Animals*, pp. 495-521. Eds. Ucko, P.J. and Dimbleby, G.W., Duckworth, London.
62. RYER, M.L. (1969). The fleece type of Nepalese sheep. *J Text. Inst.*, 60, 341-343.
63. RYDER, M.L. (1970.) Post-natal fleece development in some primitive sheep and crosses. 2. *Tierzucht. ZuchtsBiol.*, 86, 371-391.
64. RYDER, M.L. (1972). Wool of the 14th Century B.C. from Tell el-Amarna, Egypt. *Nature*, 240, 355-356.
65. RYDER, M.L. and WILSON, D.T. (1972). Fleece characteristics and postnatal fleece development in Finnish Landrace x Merino sheep. *Anim. Prod.*, 15. 75-84.
66. RYDER. M.L. (1973). Variation in the birthcoats of Wiltshire lambs, and its relation to casting of the adult fleece. *J. Agric. Sci., Camb.*, 80, 71-74.

67. RYDER, M.L. (1974). Post-natal fleece development and fleece changes in three selection lines of Scottish Blackface sheep. *Anim. Prod.*, 18, 169-177
68. RYDER, M.L. (1974). Fleece measurements of some miscellaneous native and unimproved breeds of sheep. *J. Text. Inst.* 65, 13-L9.
69. BURNS, Marca and RYDER, M.L. (1974). The effects of egg transfer on the birthcoats of Soay and Finnish Landrace lambs. *J. Agric. Sci., Camb.*, g, 205-216.
70. RYDER, M.L., LAND R.B. and DITCUBURN. R. (1974). Colour inheritance in Soay, Orkney and Shetland sheep. *J Zool*, 12, 477-485.
71. RYDER, M.L. (1974). Hair of the mammoth. *Nature*, 249, 190-192.
72. ORR. M.B., BARLOW, R.M. and RYDER, M.L. (1977). Histological and histochemical studies of feotal skin follicles in Border Disease sheep. *Research in Vet. Science*, 22, 56-61.
73. RYDER, M.L. (1976). A note on staple formation in fleeces. *J. Text. Inst.*, 67, 459-460.
74. RYDER, M.L. (1977). The pre-natal development of skin follicles in Mouflon (*Ovis musimon*), Soay and Shetland sheep. *J. Agric. Sci. Camb.*, 88. 471-475.
75. RYDER, M. L. (1977). Some miscellaneous ancient fleece remains. *J. Arch. Sci.* 4, 177-181.
76. RYDEH, M. L. (1978) The fleeces of Wiltshire x Wensleydale sheep. *Anim Prod.*, 26, 325-329.
77. ADALSTEINSSON, S., LAUVERGNE, J.J. BOYAZOGLU, J.G. and RYDER, M.L. (1978). A possible genetic interpretation of the colour variants in the fleece of the Gotland and Goth sheep. *Ann. Genetic. Sel. Anim.* 10, 329-342.

78. RYDER, M. L. and PRTESTLEY, G.C. (1979). Charges in epidemal and wool pigmentation in autografts of sheep skin. *J. Text. Inst.* 7. 230-214.

79. RYDER, M.L. (1980). Fleece colour in sheep and its inheritance *Anim. Breed Abs.*, 48, 305-324.

80. RYDER, M.L. (1981). The primitive domestic sheep of Europe. *Ann. Genet. Sel. Anim.* 13(4) 381-418.

81. RYDER, M.L. (1984). "The coloured sheep of Europe". pp 56-69. in H.T. Blair (ed) *Coloured sheep end their products (Proc. Vorld Congress on Coloured Sheep)*, New Zealand, 1984.

82. RYDER, M.L. ('1984), "The historical development of fleece type and loss of colour", pp 212-221 in H.T. Blair (ed). *Coloured sheep and their products (Proc. 2nd World Congress on Coloured sheep, nz, 1984)*

83. RYDER, M.L. and WALKER, M.F, (1985). A note on the fleece characteristics of Oxford Down sheep. *Anim. Prod.* 40, 181-183.

83A. HUTCHNGS, N.J. and RYDER, M.L. (1985). The automation of the projection microscope method of fibre diameter measurement. *J. Textile Inst.* 76 (4), 295-299.

83B. RYDER, M.L. (1985). Cross-breeding studies with selected fleece lines of Scottish Blackface sheep. *J. Textile Ins.* 76 (5). 362-376

83C. RYDER, M.L. (1985). Research on cashmere production in Scotland. *Proc. 7th Int. Wool Textile Research Conf.*, Tokyo , 1985. VOI 2. 215-222.

83D. WITHERS, A.P. JAHODA, C.A.B., RYDER, M.L. and OLIVER, R.F. (1986). The culture of wool follicle dermal papilla cells from two breeds of sheep. *Arch. Dermatological Research.* 279, 140-1112.

83E. RYDER, M.L. and ADALSTEINSSON, S. (1987). A note on the difference in coat structure between the black and white areas of piebald lambs. *J. Agric. Sci. Camb.* 108, 379-382.

83F. ORMEROD, A.D., MAIN, R.A., RYDER, M.L. and GREGORY, D.W. (1987). A family with diffuse partial woolly scalp hair. *Br. J. Dermatology* 116, 401-405.

83G. VSEVOLODOV, E .B. ADALSTE INSSON, S. and RYDER, M.L. (1987). Electron spin resonance spectrometrical study of the melanins in the wool of some North European sheep in relation to their colour inheritance. *J. Heredity*. 78, 120-122

BOOKS, BOOK CHAPTERS AND REVIEWS

81. RYDER, M.L. (1963). A survey of the gross structural features of protein fibres. *Post advanced course on fibre structure at Manchester Coll. of Science & Tech.* (June 1959).
Published by Butterworths and the Text. Inst. in *Fibre Structure*, pp. 534-566.

82. RYDER, M.L. (1965). Wool growth in sheep. Course on Comparative Physiology and Pathology of Skin. Cambridge 1964. *In Comp Path. and Physiol. of Skin*, pp. 161-289.

83. RYDER, M.L. (1965). The production of protein fibres. *Rev. of Textile Progress* 16, 1-20.

84. RYDER, M.L. and STEPHENSON, S.K. (1968). Book: "WoolGrowth", pp. 806. Academic Press.

85. RYDER, M.L. (1972). The wools of Britain. Chap. 4, pp. 51-63 in Jenkins, J.G. (Ed) *The Wool Textile Industry of Great Britain*.
Routledge and Kagan Paul.

86. RYDER, M.L. (1974). Contributions on the fleece and affinities to "Island Survivors: The Ecology of the Soay Sheep of St. Kilda"
Ed. by Jewell, P.A., Milner, C. and Boyd, J.M. The Athlone Press.

87. RYDER, M.L. (1973). Booklet: "Hair". pp. 56. *Studies in Biology* No. 41., Edvard Arnold.

88 RYDER, M.L. (1975). Producing desired wool properties during fleece growth. In *Contributions of Science to the development of the textile industry* . Eds. Cordeleir, M. and Harrison, P.W. pp. 18-32. (Proc. Joint Conf. of Text. Indst. with Institut Textile de France, Paris, Sept. 1975).

89. RYDER, M.L. (1915). The production and properties of wool and other animal fibres. *Textile Progress* 7 (3) 1-63.

90. BOAZ, T.G., RYDER, M.L. and TEWEST, W.M. (1977). A role for the Merino in British sheep production. *J. Roy. Agric. Soc. of Eng.*, 138, 98-115.

91. RYDER, M.L. (1978). Growth cycles in the coat of ruminants. *Int. J. Chronobiology*. 5, 369- 394.

92. RYDER, M.L., (1981). Nutrition and wool growth pp. 517-520 in Rechcigl, M. (Ed.). *Handbook of Nutritional Requirements in a Functional Context*. CRC Press, Boca Raton, Florida.

92(a) RYDER, M.L. (1983). *Sheep and Man*, Duckworth. London.

93. RYDER, W.L. (1 984). "Sheep" Ch. 9 pp. 63-85 in Mason, I.L., (Ed). *Evolution domesticated animals*, Longman, London

93A. RYDER. M.L. (1987). "Wool" pp. 3-10 in Fayez, I. Marai, M and Owen, J .B. (Eds.). *New Techniques in Sheep Production*. Butterworth, London.
